

Hardware Asset Request Guide

SOP-AM-006 | Version 1.2

Sample training content for learning MkDocs: convert this PDF into Markdown under docs/.

Eligible hardware

Standard laptop, monitor, headset, docking station, and keyboard/mouse kits are ordered from the asset catalog.

Item	Refresh cycle	Notes
Laptop	3-4 years	Role-based models only
Monitor	5 years	Max two per desk by default
Headset	As needed	Noise-cancelling standard

How to request

- Open Service Request > Hardware
- Select catalog item and ship-to address
- Manager approval required for non-standard items
- Asset tag is recorded on delivery; return old kit if refresh

Lost or stolen devices

Report immediately to Service Desk and Security. Do not delay for a replacement request.
