

Printer and Peripheral Support

KB-EUC-033 | Version 1.0

Sample training content for learning MkDocs: convert this PDF into Markdown under docs/.

Supported devices

Corporate networked printers, standard USB headsets, webcams, and docking stations listed in the hardware catalog.

Printer issues checklist

- Confirm user is on corporate network or VPN if required
- Reinstall printer from print server share
- Clear stuck jobs from the print queue
- Check toner/paper and physical error lights
- Escalate facilities for paper jams requiring hardware service

Docking and monitors

Update dock firmware via Company Portal. Try a different USB-C/Thunderbolt cable before replacing hardware.

MkDocs practice idea

Split this article into two Markdown pages later: printers.md and docks-monitors.md, and link them from a peripherals index page.
